999 – emergency

101 – reporting incidents

01604 432436 – NHW Hotline

INFORMATION NEEDED

The Police are interested in any information concerning men who call at your home purporting to be looking to purchase scrap metal. About a week ago an occupant of Calvert Close, Greens Norton was called on by men in a white pickup type vehicle. They asked if there was any metal for sale. The vehicle seemed to omit a type of sound, not too dissimilar to an ice cream van. The occupant did not have anything to sell and the vehicle moved off slowly, apparently touring the streets.

Yesterday (Sunday 17/3/13) the householder was called upon again by men driving a yellow pickup vehicle with pipework on the back. They asked if the car on the driveway was for sale. The car is an ordinary roadworthy car and certainly not one that has the appearance of being available for scrap. Again the men drove away slowly touring the streets.

The householder reported the incidents to the police who were very keen to receive any details of the vehicles and occupants.

Everyone is reminded to be extremely vigilant concerning their property and to record details of all similar vehicles and occupants. Please report any suspicious incidents to the police.

Geoff Wood – NHW Co-ordinator
